DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 10/24/03 has been considered by the examiner.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 25-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Huard (US 4,974,892 A).

Huard discloses a guard/pad/shroud 10 for a vehicle comprising a main body 11 with an inner surface for being adjacent with a planar wall of a vehicle 15 and an outer surface including various sets of flexible ribs 13, as shown in figures 5.

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Art Unit: 3618

5. Claims 1-5 and 9-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huard (US 4,974,892 A) and in further view of Trego et al. (US 6,595,306 B2).

Huard discloses a guard/pad/shroud 10 for a vehicle comprising a main body 11 with an inner surface for being adjacent with a planar wall of a vehicle 15 and an outer surface including various sets of flexible ribs 13, as shown in figures 5. Huard does not disclose the pad as being applied on a pallet truck. Trego et al. does disclose a pallet truck comprising a power unit 102, a steering unit 104, a set of forks 106, platform 110, and a main casing with rigid wall member (not numbered), as shown in figure 1. It would have been obvious to one having ordinary skill in the art at the time of the invention to have applied to pad of Huard to the pallet truck of Trego et al. in order to protect the truck from damage which would also result in cushioning for a user and insulation from the power unit.

With respect to claims 9, 10, and 34, the material used to manufacture the pad/guard is not patentable unless it produces an unexpected result, therefore it would have been obvious to one having ordinary skill in the art at the time of the invention to have manufactured the pad/guard/shroud of Huard, as applied to the pallet truck of Trego et al., of a non-foam, polymeric material in order to obtain the properties of that specific material such as insulating and durability benefits.

Application/Control Number: 10/624,769 Page 4

Art Unit: 3618

Allowable Subject Matter

6. Claims 6-8, 22-24, and 31-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Greenstadt, Fishback, Barnett, Haney et al., Norman, II, Dismuke, Wolanski, Henke et al., Crick, Pester, Willie et al., and Tolbert all disclose removable vehicle pad of interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey J. Restifo whose telephone number is (703) 305-0579. The examiner can normally be reached on M-F (10:00-6:00), alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher P. Ellis can be reached on (703) 305-0168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
